

CAMPUS SECURITY

The Governing Board is committed to providing a school environment that promotes the safety of students, staff, and visitors to school grounds. The Board also recognizes the importance of protecting district property, facilities, and equipment from vandalism and theft.

(cf. 4158/4258/4358 - Employee Security)

(cf. 5131.5 - Vandalism and Graffiti)

(cf. 5142 - Safety)

The Superintendent or designee shall develop campus security procedures, which may be included in the district's comprehensive safety plan and/or site-level safety plans. Such procedures shall be regularly reviewed to reflect changed circumstances and to assess their effectiveness in achieving safe school objectives.

Additionally, the Superintendent or designee shall regularly review current guidance regarding cybersecurity and digital media awareness and incorporate recommended practices into the district's processes and procedures related to the protection of the district's network infrastructure, and the monitoring and response to suspicious and/or threatening digital media content.

(cf. 0450 - Comprehensive Safety Plan)

Reporting Threats

Any certificated or classified employee, or other school official, whose duties bring the employee or other school official in contact on a regular basis with students in any of grades 6-12, as part of a middle or high school, who are alerted to or observe any threat or perceived threat of a homicidal act, as defined, shall immediately report the threat or perceived threat to law enforcement in accordance with Education Code 49393. (Education Code 49390, 49393)

Threat or perceived threat means any writing or action of a student that creates a reasonable suspicion that the student is preparing to commit a homicidal act related to school or a school activity. This may include possession, use, or depictions of firearms, ammunition, shootings, or targets in association with infliction of physical harm, destruction, or death in a social media post, journal, class note, or other media associated with the student. It may also include a warning by a parent, student, or other individual.

Additionally, anyone who receives or learns of a health or safety threat related to school or a school activity is encouraged to report the threat to a school or district administrator.

Surveillance Systems

In consultation with the district's safety planning committee, other relevant stakeholders, and staff, the Superintendent or designee shall identify appropriate locations for the placement of

surveillance cameras. Cameras shall not be placed in areas where students, staff, or community members have a reasonable expectation of privacy. Any audio capability on the district's surveillance equipment shall be disabled so that sounds are not recorded.

(cf. 5131.1 - Bus Conduct)
(cf. 5145.12 - Search and Seizure)

Prior to the operation of the surveillance system, the Superintendent or designee shall ensure that signs are posted at conspicuous and targeted locations around school buildings and grounds. These signs shall state that the facility uses video surveillance equipment for security purposes and that the equipment may or may not be actively monitored at any time. The Superintendent or designee shall also provide prior written notice to students and parents/guardians about the district's surveillance system, including the locations where surveillance may occur and that the recordings may be used in disciplinary proceedings and/or referred to local law enforcement, as appropriate.

(cf. 5144 - Discipline)
(cf. 5144.1 - Suspension and Expulsion/Due Process)

To the extent that any images from the district's surveillance system create a student or personnel record, the Superintendent or designee shall ensure that the images are accessed, retained, and disclosed in accordance with law, Board policy, administrative regulation, and any applicable collective bargaining agreements.

CAMPUS SECURITY

The Superintendent or designee shall develop a campus security plan which contributes to a positive school climate, fosters social and emotional learning and student well-being, and includes strategies to:

1. Secure the campus perimeter and school facilities in order to prevent criminal activity

These strategies include a risk management analysis of each campus' security system, lighting system, and fencing. Procedures to ensure unobstructed views and eliminate blind spots caused by doorways and landscaping shall also be considered. In addition, parking lot design may be studied, including methods to discourage through traffic.

2. Secure buildings and interior spaces from outsiders and discourage trespassing

These strategies may include installing locks, requiring visitor registration, providing staff and student identification tags, and patrolling places used for congregating and loitering.

(cf. 1250 - Visitors/Outsiders)
(cf. 3515.2 - Disruptions)
(cf. 5112.5 - Open/Closed Campus)

3. Secure the district's network infrastructure and web applications from cyberattacks

These strategies may include performing an independent security assessment of the district's network infrastructure and selected web applications.

4. Discourage vandalism and graffiti

These strategies may include plans to immediately cover graffiti and implement campus beautification.

(cf. 3515.4 - Recovery for Property Loss or Damage)
(cf. 5131.5 - Vandalism and Graffiti)
(cf. 5137 - Positive School Climate)
(cf. 6142.4 - Service Learning/Community Service Classes)

5. Control access to keys and other school inventory

(cf. 3440 - Inventories)

6. Detect and intervene with school crime

These strategies may include creating a school watch program, increasing adult presence and supervision, establishing an anonymous crime reporting system, analyzing school crime incidents, and collaborating with local law enforcement agencies, including providing for law enforcement presence.

CAMPUS SECURITY (continued)

7. Additionally, all staff shall be made aware of their responsibilities regarding the immediate reporting of potential homicidal acts to law enforcement, and receive training in the assessment and reporting of such threats.

All staff shall receive training in building and grounds security procedures and emergency response.

Locks

All state-funded new construction and modernization projects shall include locks that allow doors to classrooms and any room with an occupancy of five or more persons to be locked from the inside. Student restrooms and doors that lock from the outside at all times are not required to have locks that can be locked from the inside. (Education Code 17075.50, 17583; 24 CCR 1010.1.9, 1010.1.11)

Keys

All keys used in a school shall be the responsibility of the principal or designee. Keys shall be issued only to authorized employees who regularly need a key in order to carry out their job responsibilities.

The principal or designee shall create a key control system with a record of each key assigned and room(s) or building(s) which the key opens.

Keys shall never be loaned to students, parents/guardians, or volunteers, nor shall the master key ever be loaned.

CAMPUS SECURITY (continued)

Any person issued a key shall be responsible for its safekeeping. The duplication of school keys is prohibited. If a key is lost, the person responsible shall immediately report the loss to the principal or designee and shall pay for a replacement key.
